

Forever Bond™ vs EIFS

Overall material costs of the Forever Bond™ Finish System are equal or less than those material costs of the EIFS system and THE LABOR SAVINGS ARE VERY SUBSTANTIAL. Normal application time of the EIFS system is measured in weeks since each coat must cure before another is applied. Our "one-step" process saves all the costs of the fasteners, mesh, and vapor barriers - as they are totally eliminated.

Keep it Clean, Go GREEN!
Forever Bond™ has no VOC's.
